

### STEP 3: AFTER THE CASTING and OPTIONS

After the casting, the production company will start making their selection of their preferred cast.

## WHAT HAPPENS AFTER A CASTING

- It is very rare that you will be told you have got the job straight after you finish speaking to the representative at the casting. If they like you, it will be a decision made much later on and they will contact CCA, your booker in turn will inform you.

Remember the casting for POLO, the producer was impressed with you.

Can you be available for the shoot, between the 10 and the 15<sup>th</sup> of this month?

Can we give them first option ?

Once the availability is confirmed, telephonically or by email. Be on standby the booker will confirm the time and location.

If you are selected they will start placing their option (who they want). The production companies will contact us "Celebrities " and we will call/email you to confirm an option on you. (99%) Always **DOUBLE** check your diary before committing to an option. (Consider commitments, school / university exams, sport days etc.).

**If you say "YES", on the option request, you are committed to do the booking/shoot.** The film crew will be waiting for you, on the shooting location during the given time slots.

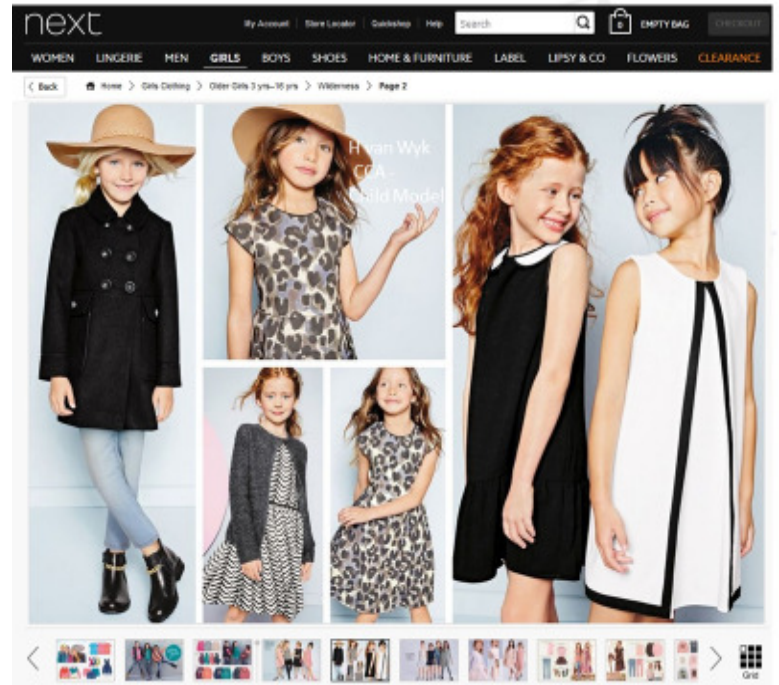

If you are short-listed or on call back, that means they liked you and want to see you again. If clothing is involved, we will let you know if you must go for a wardrobe fitting.

When you are requested for other shoots for the same day as well, the first option will ensure the client (guaranteeing the 1<sup>st</sup> options client), that you will be available for their shoot and not for another production happening in the same time slots.

At this point we may ask parents again for their children's birth certificate and a consent letter to obtain a work permit for the child. We also need a tax number (should you not have one before, we will obtain it) and adults to supply us with an Id and tax number (should you not have one before, we will obtain it for you).

Should you be called directly after a casting for whatever reason, contact us immediately otherwise invoicing cannot be done correctly and therefore you might not be paid.

**Remember that you do not get paid for attending a casting / audition, only in the case of you being chosen and used for a part or photo shoot.**

Sometimes artists wait for months, or they have been too few castings before they get their first assignment.

### **After the CASTING;**

Should the artist be successful, we will phone/email and inform you of the good news. If you don't hear from us you can assume you were unsuccessful if the shooting date has passed.

**Please do not contact us, asking if you were chosen, we are also waiting, and will let you know as soon as production informs us. We make money when you make money, therefore we will surely get hold of you when you were successfully cast.**

**We fully understand the emotions involved – the let down feeling if you are not chosen, but there is always another chance. Do not give up - persistence paves the way to success.**

**REMEMBER we will only phone you with good news!**
